

Mumbai is a long, narrow promontory covering 603 sq km (233 sq miles), which juts into the Arabian Sea. Its downtown is the historic Fort area in South Mumbai, that derives its name from earlier colonial fortifications. This is the city's nerve centre, with the best-known sights, hotels and restaurants. The posh residential area of Malabar Hill lies along the western coastline, just north of Marine Drive. Suburban Mumbai, with its sprawling modern developments, stretches northwards from Bandra.

Fishing boats, decorated for Holi, at the seafront in South Mumbai

Sights at a Glance

Getting Around

Three suburban railway lines link the northern suburbs to the city centre and the southern tip. A taxi, private car or the red BEST buses are convenient ways to get around within the city. In the suburbs, you can only use the auto-rickshaws.
